

Technical Data Sheet

Product name: Recycled HDPE (Polyethylene)

Code: B 3 blue Pellets

Description of the product: Polyethylene pellets suitable for extrusion applications

Material characteristics:

- Good processability
- Good mechanical properties.
- High stiffness properties

Applications: suitable for extrusion applications (heavy-duty bags, sheet, beltsetc.

Physical properties:

1.	Appearance	Pellets
2.	Color	Blue
3.	Specific Gravity:	0.945-0.965 (g/cm ³ @23°C)
4.	Melt flow index 190°C – 5 kg	0.8 – 0.9 g /10 min
5.	Melting Point:	135-137 °C

Storage: This product should be stored in a dry area away of heat, ignition and direct sunlight.

Packaging: packed in PE bags containing 25 kilograms each.
