

Technical Data Sheet

Product name: Recycled PE (Polyethylene)

Code: B 1 Black Pellets

Description of the product: Polyethylene pellets suitable for blown-film extrusion.

Material characteristics:

- Good processability
- Good mechanical properties.

| Physical properties: | | |
|----------------------|----------------------------------|--------------------------------------|
| 1. | Appearance | Pellets |
| 2. | Color | Black |
| 3. | Specific Gravity: | 0.92-0.945 (g/cm ³ @23°C) |
| 4. | Melt flow index 190°C -2.16kg | 1 g /10 min |
| 5. | Melting Point: | 129-133 °C |

Storage: This product should be stored in a dry area away of heat, ignition and direct sunlight.

Packaging: packed in PE bags containing 25 kilograms each.
