

Technical Data Sheet

Product name: Recycled PP (Polypropylene)

Code: B 6 Black Pellets

Description of the product: Polypropylene pellets suitable for injection processing.

Material characteristics:

- Good processability
- Good mechanical properties.

Applications: suitable for Injection products (Crates, Boxes, jars.....etc.		
Physical properties:		
1.	Appearance	Pellets
2.	Color	Black
3.	Specific Gravity:	0.902-0.907 (g/cm ³ @23°C)
4.	Melt flow index 230°C -2.16kg	11 g /10 min
5.	Melting Point:	162-166 °C

Storage: This product should be stored in a dry area away of heat, ignition and direct sunlight.

Packaging: packed in PE bags containing 25 kilograms each.
