

Technical Data Sheet

Product name: Recycled PE (Polyethylene)

Code: B 4 red Pellets

Description of the product: Polyethylene pellets suitable for injection applications

Material characteristics:

- Good processability
- Good mechanical properties.

| | | |
|---|---------------------------------|--------------------------------------|
| Applications: suitable for Injection applications (Boxes, caps, screwsetc. | | |
| Physical properties: | | |
| 1. | Appearance | Pellets |
| 2. | Color | Red |
| 3. | Specific Gravity: | 0.945-0.95 (g/cm ³ @23°C) |
| 4. | Melt flow index 190°C – 5 kg | 4 – 5 g /10 min |
| 5. | Melting Point: | 130-135 °C |

Storage: This product should be stored in a dry area away of heat, ignition and direct sunlight.

Packaging: packed in PE bags containing 25 kilograms each.
